## HelixTranslate — Issues Summary

**Revision:** 1 **Last modified:** 2026-06-14T15:41:17Z **Authority:** §11.4.12 (Issues\_Summary sync) · §11.4.54 (ATM ID column) · §11.4.19 (column-alignment) · §11.4.91 (clear descriptions) **Generated:** auto-generated from docs/Issues.md by scripts/testing/generate\_issues\_summary.sh — do not hand-edit.

| ATM ID  | Level  | Status           | Type    | One-line description                                                                                |
|---------|--------|------------------|---------|-----------------------------------------------------------------------------------------------------|
| ATM-065 | High   | Operator-blocked | Task    | Decide the single authoritative version number (2.3.x vs 3.0.0)                                     |
| ATM-066 | High   | Operator-blocked | Bug     | Provider credentials absent/invalid (OpenAI/Anthropic/Gemini/Zhipu) block allowlist refresh         |
| ATM-067 | High   | Operator-blocked | Task    | ~30 other provider allowlists not audited against live current models                               |
| ATM-068 | Medium | Design           | Task    | Inert CLI flags in unified-translator (-chunk-size/-workers/-concurrency/-verify, -monitoring stub) |
| ATM-069 | Medium | Design           | Task    | Inert config fields (DOCXConfig.MinTextLength/IgnoreStyles, PDFConfig.MinTextLength)                |
| ATM-070 | Medium | Design           | Bug     | Verifier MinScoreThreshold scale inconsistency (0-100 raw vs 0-10 normalized)                       |
| ATM-071 | Medium | Design           | Feature | Reasoning-model structured-content support (content as LIST, not STRING)                            |
| ATM-072 | Medium | Design           | Feature | Markdown not a first-class CLI input format                                                         |
| ATM-073 | High   | Blocked          | Bug     | cmd/translator intermediate-markdown download-dir inconsistency (needs live SSH)                    |
| ATM-074 | High   | Operator-blocked | Task    | pkg/hash is a dead package (zero importers) — investigate per §11.4.124                             |

| ATM ID  | Level  | Status           | Type | One-line description                                                             |
|---------|--------|------------------|------|----------------------------------------------------------------------------------|
| ATM-075 | Normal | Queued           | Task | Pre-build CM-* gate suite not implemented                                        |
| ATM-076 | Normal | Queued           | Task | §11.4.65 universal markdown export audit across all tracked docs                 |
| ATM-077 | High   | Blocked          | Task | Owned-submodule bug-hunt + brittle-test fixes (§11.4.28 equal-codebase)          |
| ATM-078 | Normal | Queued           | Task | Per-feature test-type matrix + HelixQA + Challenges coverage (§11.4.25/§11.4.27) |
| ATM-079 | Normal | Queued           | Task | docs/qa/ evidence per shipped feature (§11.4.83)                                 |
| ATM-080 | High   | Operator-blocked | Task | Full §11.4.40 7-step release retest not yet run                                  |
| ATM-081 | High   | Operator-blocked | Task | No §11.4.151 prefixed release tag yet                                            |
